

CO-CITY ZOOM-IN: LEGAL TOOL FOR CITIZEN- MUNICIPAL COLLABORATION CREATED TO FIGHT URBAN POVERTY

30/Jul/2018

UIA Expert Christian Iaione describes the progress made on the Pacts of Collaboration.

In the first Zoom-In produced for the CO-[City](#) project being implemented in the [City](#) of Turin we learn about the Pacts of Collaboration, the legal tool that has been created for the [City](#)'s inhabitants and the municipal administration to use and work together in order to address urban poverty. Find out further how the co-design is being developed and how the individual Pacts are working to address key issues in Turin's most deprived neighbourhoods.

The UIA will publish a collection of Zoom-In's from its funded projects annually in a variety of formats including: articles, interviews, videos or infographics. Zoom-In's are an in-depth look into a specific part of the project allowing us to deepen the knowledge

generated by the project concerning the solutions designed and implemented. It provides further information on how to overcome the main challenges related to the experimentation of innovative projects in a real urban setting.
