

# TURIN REGULATION ON CO-MANAGEMENT OF URBAN COMMONS

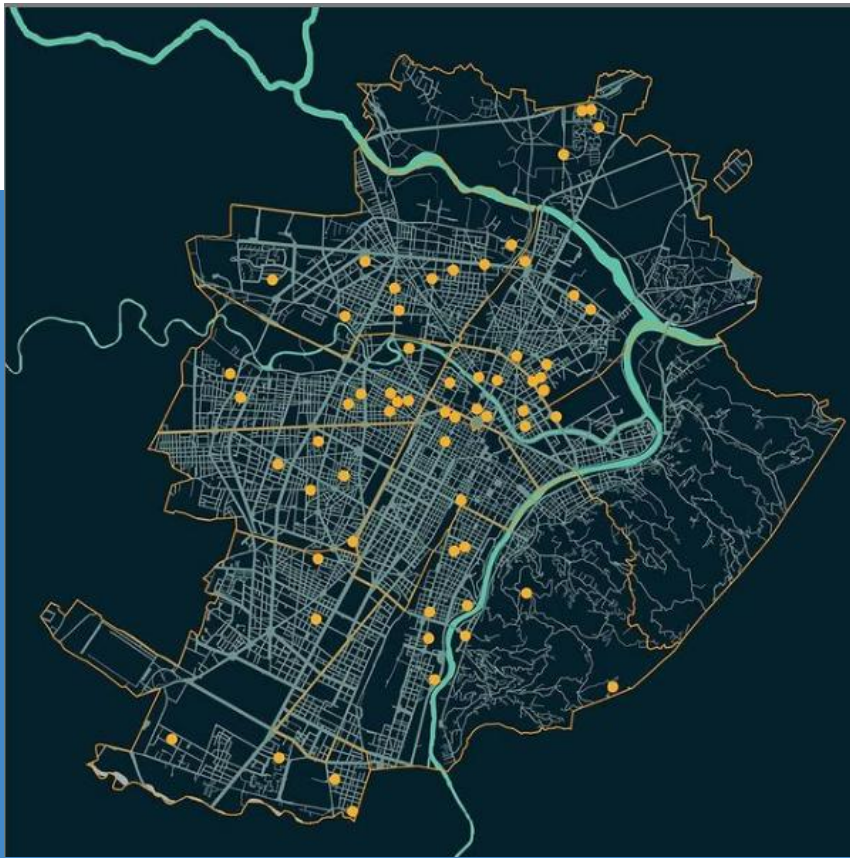

## Pacts of collaboration

Tiziana Eliantonio - Laura Socci - Anna Stella  
Urban Commons Office

Dept. EU and National Projects  
Urban regeneration, Neighbourhoods and Urban Commons Area

# CO<sup>4</sup> CITIES

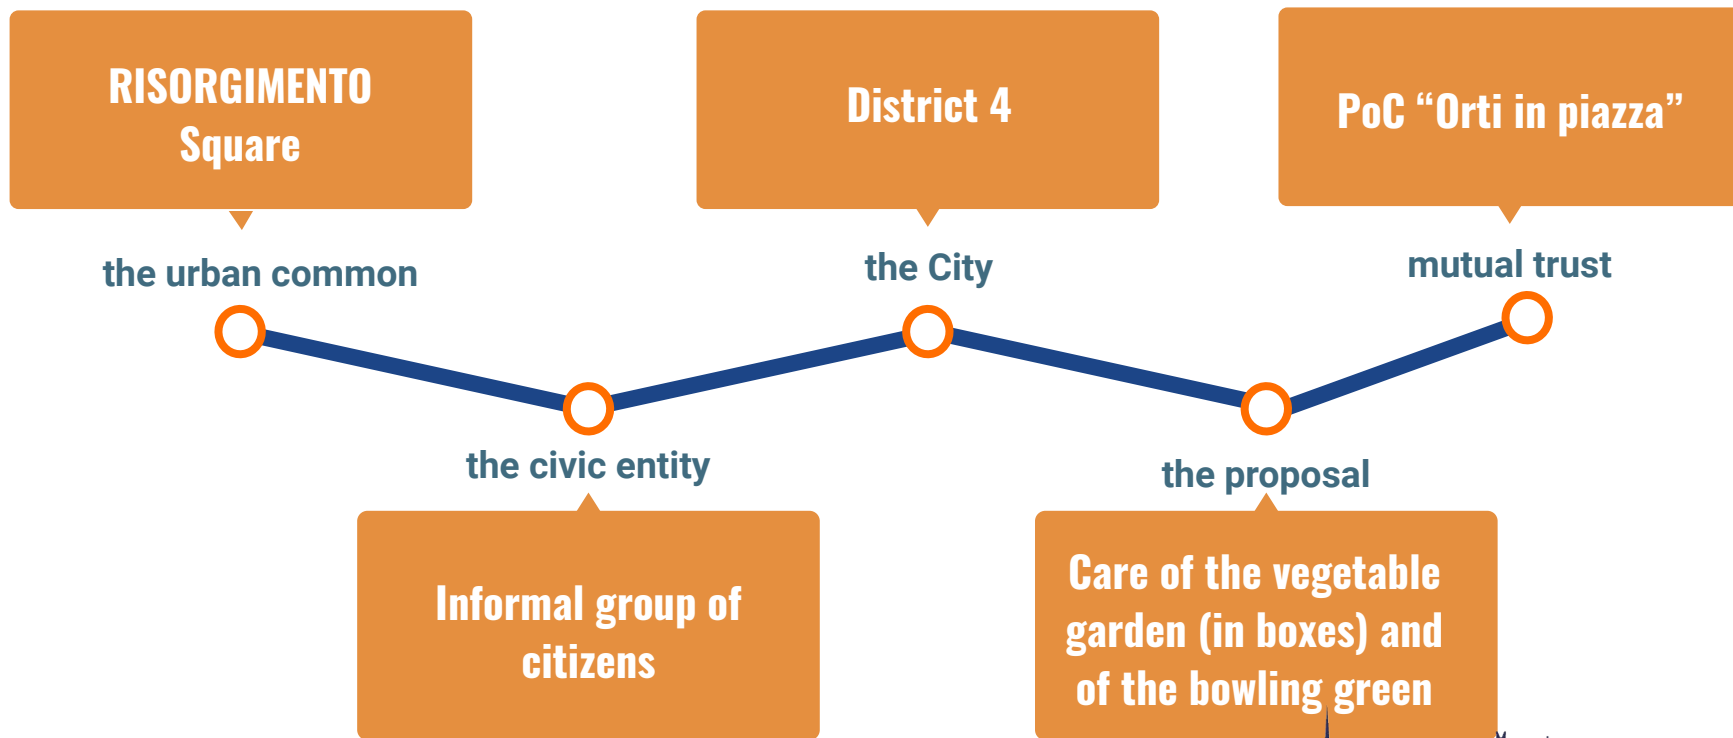

# HOW MANY PACTS?

More than 60 PoC have been signed so far (since 2016)

Main areas of intervention: taking care of green and public spaces; socio-cultural and sport activities; reuse and co-management of public buildings; schools as a territorial resource and social space.

# What does it take to create a PoC?

# ORTI IN PIAZZA RISORGIMENTO

**2016** - “Torino Living Lab” project allows innovative solutions for the reuse of public space in Risorgimento Sq.: the cooperative management of vegetable gardens begins.

**2017** - At the end of the project, a community of “growers” proposes to keep on taking care of the vegetable garden.

**2018** - The co-design phase begins -together with the administrative District 4, in order to manage all technical and legal aspects.

# ORTI IN PIAZZA RISORGIMENTO

- **2019** - The PoC is signed, for a duration of 3 years.
- **2020** - The periodic monitoring meeting observes the vitality of the pact despite the pandemic emergency and some difficulties in integrating the activities of the 2 groups.

# The civic entity

**Informal group:** the citizens taking care of the vegetable garden and the ones managing the bowling green do not form an association.

The group (of over 40) democratically appoints a representative, who actively follows (and reports to the group) the co-design phase and then signs the PoC.

# Main phases of the PoC

## PROPOSAL

- the urban common is identified by involved citizens
- they make a proposal for co-management
- positive evaluation of the technical Working Group

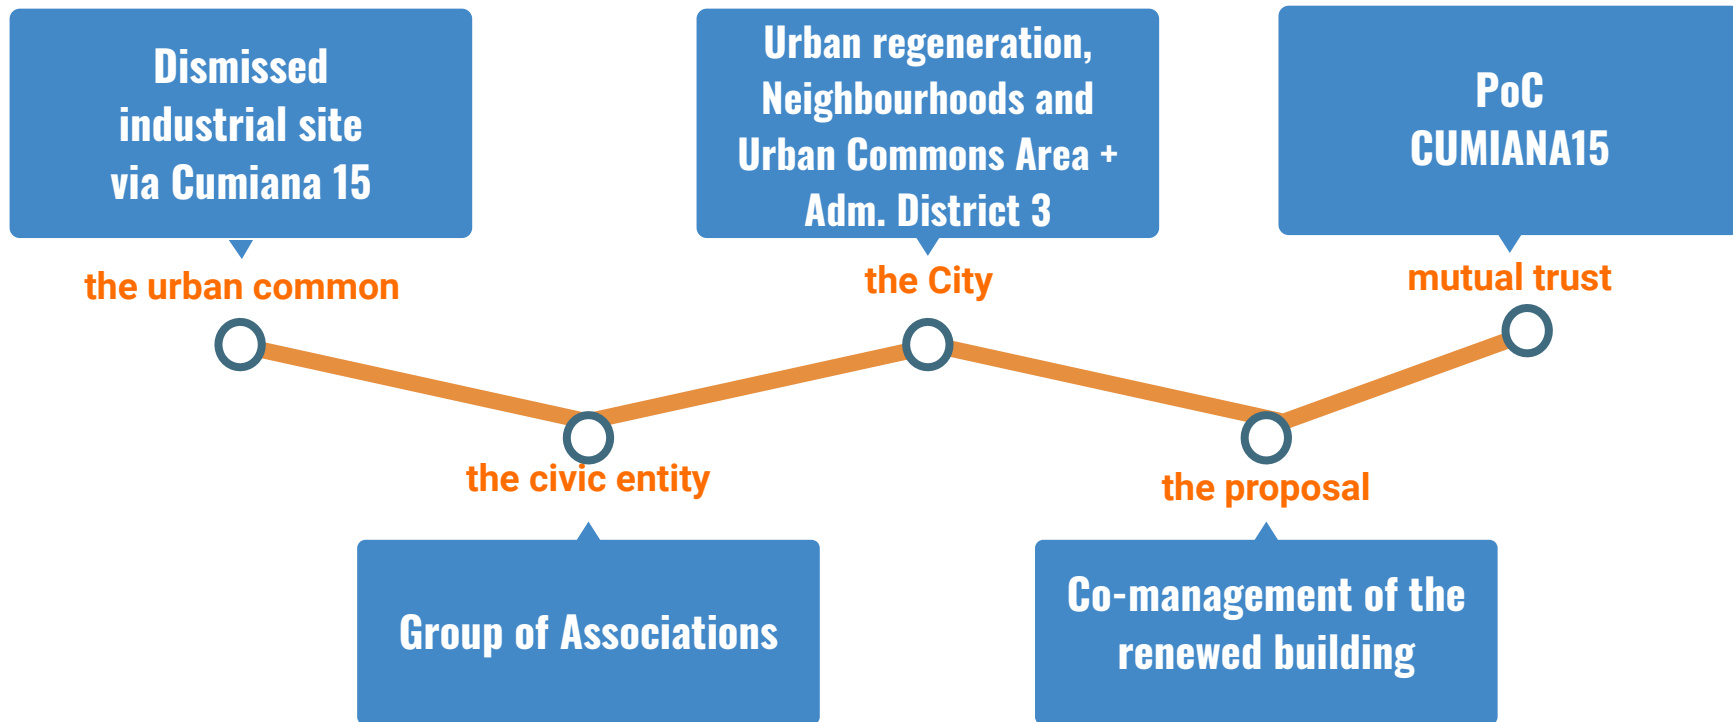

## CO-DESIGN

- the co-design phase (proposers+City offices) requires many meetings
- the proposal is integrated/expanded/reviewed

## CO-MANAGEMENT

- the PoC is signed and the activities are realized
- periodic monitoring activities reveal the vitality of the PoC

# What does it take to create a PoC?

# CUMIANA15

**2017** - CO-CITY project - Public call for proposals, the City identifies the areas of intervention

**2017/2018** - Among the received proposals the one on via Cumiana 15 is selected (Measure A - *Periphery and urban cultures*)

**2018** - The co-design phase (proposers+City) to define all necessary technical and administrative aspects for the physical renewal of the building

# CUMIANA15

2019 - Public procurement for renovation works

2020 - End of CO-CITY project and of works: the group of associations and the City sign the PoC

2020/2021 - The foreseen activities begin (and are still ongoing). The space (a “covered square”) plays an important role during the pandemic.

Inaugurated on Sept. 15th 2020

# Tools for the PoC's governance

CUMIANA15

The activities are managed and supervised by the **Steering Committee** composed by members of the City, the Adm. District 3 and the associations (meetings every 6 months).

The logistic coordination for the realization of activities is granted by the **operational staff** (weekly).

# CUMIANA15

## ● Main activities

- Over Sound e Over Skate
- sport activities for children
- cultural event Opposto/sovrapposto
- videoclip *La stanza di Greta*
- collection and redistribution of unsold food from the nearby market

**BIMBI IN PIAZZA**

# CUMIANA15

# Associazione Eufemia

**OPPOSTO-SOVRAPPOSTO**

# Follow-up on PoC

## Monitoring

Meetings and site-visits are periodically scheduled.

## PoC and the communities

- they are proactive and motivated despite the pandemic period
- the PoC ongoing process
- activities and weaknesses
- Covid 19 impact assessment

# Care of public spaces

**Basketball court corso Taranto**

**Cristino Garden**

**Ginzburg Flowerbed**

**Don Albera Square**

## Other PoC in Turin

# Co-management of municipal buildings + areas

Other PoC in Turin

BeeOzanam - via Foligno

FalkLab - via degli Abeti

# Co-management of municipal buildings + areas

## Hortus Conclusus - Parco Dora

CivicoZero - via Mameli

Spaccio di cultura - Porta Palazzo

# Risk prevention

The City and civic entities sign a document which describes the general risks of the area, the specific risks of the carried out activities , the useful actions to mitigate the risk of causing damage to property or people.

In the case of buildings, a safety plan is drawn up.

During the activities, all anti-Covid 19 measures are respected.

# Info on PoC

All proposals, administrative documents, signed PoC, informations on activities are available here
