The Jury will select the best 5 groups or soloists who will access the Final, while the sixth finalist will be expressed by the vote of the public, who will be asked to express their preference for the live selections. In fact, for each selection evening, the public will be able to vote on the web for their favorite group or soloist through the consolidated comment / vote mechanism which, at the end of all selections and following the count, will allow a sixth group or soloist in competition with the highest number of votes received, to participate in the final under the same conditions as the 5 other finalists expressed by the jury. Voting will be considered open from the moment the performance of the artists is published on the IGTV PAGELLA NON ONLY ROCK profile and will close 24 hours later.
