Version Notes	

Introduction

As deeply exposed in the dissemination plan, the responsibilities of spreading in PRAISE project are subdivided between all the partners and all the actors involved in the formation process. To classics instruments as presentations and publications, are joint informal instruments as well. The center of the actions is the local virtuous circle which is the engine of a series of dissemination informal events starting from the involvement of the members.

These events are so various and so subdivided that is very difficult to classify and to monitor them with traditional instruments like tables or closed questionnaires.

In this documents are exposed the most important events collected by each partner, they represent only a point of view of the formative institution of a complex set of interactions existing but not exactly monitored .

The partners

Each partner has lead the of analysis into own territory: the virtuous circle and the social local context. The following tables synthetize the quantitative results of carried out jobs.

Name of organisation	Brief description of dissemination activity	Date(s) of dissemination activity	Where it took place	Which audiences were targeted in the dissemination activity
