

PRAISE

Progress Summary

First Day - Accomplishments

- Shared experience of each implementations of virtuous circles, including problems, characteristics, etc.
- Rehearsed the objectives of PRAISE, definition of VCs, etc.

First Day - Accomplishments

- Provided clear evidence of hard work in pedagogic partners in implementing VCs within their various institutions.
- Study of methodology with which to connect VCs, case studies, and formative modules

First Day - Proposals for Further Work

- Each partner to produce a narration of their experience in implementing a VC in their institution. This will result in a VC of VCs.
- Each partner to produce details of difficulties in implementing their VC. To be coordinated by SFEP.
- At next meeting (Sept) there will be a focus group to study the various solutions which will be proposed at the this meeting.

First Day - Proposals for Further Work

- Continue with the collection of case studies supporting good practice.
- To use email if the DB system will not support regular use as determined for the rest of the meeting.

Second Day - Accomplishments

- Had a thorough overview of elearning pedagogical principles and methods;
- All partners participated in a short on-line course as students in order to gain a better understanding of the student perspective in on-line learning;

Second Day - Accomplishments

- All participants took part in an in-depth training exercise in which they created sample modules and learning resources;
- All participants took part in an administrative and financial meeting which also raised issues relating to the interim report, due in January 2005.

Second Day - Proposals For Further Work

- All participants to go and create a personal username and password through the CABLE DB application;
- All participants to login to the VLE and experiment with module creation on their floor; also to begin to take part in the online discussion fora;
- All participants to begin preparation of materials for interim report, due by end of November, 2004.

Second Day - Proposals For Further Work

- Coordinators to finalize CA, partners to sign, due by end of September.

Third Day - Accomplishments

- A review of the status of CABLE was made; this included a review of the interim report process and recommendations for improving this process;
- A review of the upcoming tasks for PRAISE was made, including detailed planning for the next two meetings (Island, Bethel).

Third Day - Accomplishments

- There was discussion of the requirements for a project conference. It was not decided whether this should be held in Skye or in another, more easily accessible location at a slightly earlier time;
- It was agreed to produce a book and that INFOP would coordinate the publishing of said book.

Third Day - Proposal for Future Work

- To concentrate on the requirements for the next meeting in Island.
